

## PROFILE:

Brian Barbeau was a Project Manager for over ten years with Fillmore Construction and recently appointed Vice President of Field Operations. His responsibilities include the coordination and supervision of all project related field construction activities using all resources necessary to achieve completion of projects on schedule, within budget and meeting quality standards and customer expectations. Brian's focus is the on-going support of the site field superintendents and to maintain a safe, secure and healthy work environment by following and enforcing standards and procedures and complying with the overall Fillmore Construction Health and Safety program.

His diverse background in the construction industry and his experience as a Red Seal Journeyman welder gives him a strong construction knowledge. Brian's professional approach, problem solving skills and attention to detail allow him to consistently complete projects on time and within budget. Brian's motivation and commitment to quality have made him a strong addition to our team.
