PROFILE:

With over 25 years' experience in the construction industry Robert understands what it takes to make a project successful – collaboration and understanding. Robert's strength in pre-construction, value engineering, costing and understanding how to build is unparalleled. As the Vice President Estimating, Robert's primary responsibility is to ensure all tenders and budgets are completed accurately and that all of our client's budget and schedule expectations are realized. Robert's proven track record in the industry and ability to speak to all members of the project team reassures confidences. With his ability to develop and maintain relationships with clients, consultants and trades make him an asset as to the Fillmore Construction team.
